fluent english

programming

♥ Swift
Objective-C
Golang
Haskell
Javascript - nodeJS

work experience

- Spring 2015 **Parkfy**, freelance Parkfy.com
Sharing economy - Big iOS app project.
- Winter 2015 **Wanty**, freelance Wantyapp.com
iOS implementation of a *XMPP chat*. Working remote with a team in Girona.

projects

- 2012-2015 **Showy and Soda** soda.glass
iOS app for tracking TV Shows. Spanish *AppStore Top 2* on launch. Worked with a designer, Jose Cruz.
- 2014-2015 **Taylor** OSS project
HTTP server implementation in *Swift*. Gave a talk about Taylor in Swift Summit in London in March 2015.
- 2013 **Cardwee** cardwee.com
Developed a loyalty card mobile program that turned into a B2B startup. I co-founded the company with Luis Iván Cuende and Danny Saltaren.
- 2011-2015 **Multiple iOS apps** App Store
Including Magic Remote, uRlate, A++genda. These apps were developed as a hobby.

education

- Summer 2014 **Recurse Center**, formerly Hacker School New York City
Learned about functional programming and networking. Built a *semi-mesh network* and a *blockchain node clone*.
- 2013-2015 **Spanish Bachillerto**, 9.41/10 Colegio Obispo Perelló, Madrid
Specialization in Engineering.

awards and remarks

- 2014 **Regional debate tournament**, 2nd prize out of 90 teams Madrid
Debating about whether age majority should be lowered down to 16 years old. *Video of the final in Youtube*.
- 2013 **Fiware Hackathon Winner**, Campus Party Europe London
Built *Smads*, a solution for advertising in Smart cities.
- 2013 **Apple WWDC Scholarship** San Francisco
Invited by Apple to attend their developer conference with a student scholarship.

interests

app development, functional programming, p2p networks, cryptocurrencies, social networks, politics, philosophy, travelling, debates
